## ABOUT ME

I am an engineering student currently learning development and design, passionate about technology and creativity. Hardworking and eager to apply my skills in both coding and visual design to real-world projects, I am committed to continuous learning and growth in the tech field.

## EDUCATION

### BTech in computer science with specialization in data science

[JSS Academy of Technical Education], [Ghaziabad/Uttar Pradesh]

2024 – 2028

## PROJECTS

### 1)AuraList

AuraList is a digital canvas for tracking not just tasks, but the moods, moments, and memories that shape our day-to-day flow.

### 2)TRENDTELLER

Live Data Integration: Fetches real-time updates from TMDB/IMDb for movies and NewsAPI/GNews for current events.

### 3)BOOKSTORE

Live Data Integration: Fetches real-time updates from google book Api.

Live Search: Users can search by title, author, or keyword with instant results.

Book Details: Displays cover image, title, author(s), publisher, publication date, and description.

### 4)MYNTRA CLON    5)MYNTRA CLON    6)CHATBOX

## EXPERIENCE

### SIH participation |2025

Participated in the Smart India Hackathon (SIH), collaborating with a team to develop innovative solutions for real-world problems. Contributed to idea generation, coding, and project presentation, showcasing strong teamwork, problem-solving, and technical skills in a competitive environment.
